Sloat's Machines have been introduced in Kentucky since July last; since which time they have rapidly gained in public favor; and such is now the demand for them, in consequence of their superiority and low price, that the manufacturers at Philadelphia are turning out 200 per week, and the demand not fully met.

|For the Yeoman Land Register-Thos. J. Frazier.

RICHMOMD, Ky., Nov. 22, 1858. Messrs. Editors: Among the many names spoken of in connection with the office of Register of Lands is that of Judge Thos. J. Frazier, of Madison. Judge F. is so well-known in this portion of the State, that did your paper circulate n no other section, it would be a work of superin every county of our Commonwealth, it may be our beloved Commonwealth. With a fertile soil neees-ary to say a few words in his favor-

station to which he aspires is well-known throughout this district, and I am confident that should he be the nominee, he will discharge the duties of the office to the satisfaction of his constituents and with credit to himself.

That Judge Frazier is one of the most popular men in this district no one can gainsay. In 1843 he was elected to the State Legislature, receivthe exception of fifteen; in 1852 he was elected it is meet that as a people we should bow becopularity, that no one could be found to oppose ness and gratitude. aim; and in 1855 the candidacy of the office for which his friends are now putting his name forward was given to him by the State Convention, against his wishes. But true to his party, he aceepted the nomination, although certain defeat could alone be expected, and early in the spring commenced the canvass of the district. Wherever he went immense gains for the Democraey occurred; and at the election, this the Sixth) district, which had invariably given from two to three thousand majority against our State ticket, went for the Democracy by twelve hundred votes-Judge Frazier leading the entire ticket.

In addition to Judge Frazier's numerous qualifications for the office, this end of the State, siriking a line from Fleming across to Wayne county, comprising fully one-third of the area of the State -has never had a State officer taken from within is limits. This section gives a strong Democrat- says majority, and is pre-eminently entitled to be presented upon the State ticket; and I know of one who would give so great an impetus to girl of sixteen! he Democracy of the mountains as Judge Frazier. Ie is the first choice of nine-tenths of the voters our party in the Sixth and Ninth districts, and he second choice of the balance.

In conclusion, let me say, the Sixth district rash deed he had done without a license. ves the second largest Democratic majority in State-the largest being given by the First; nd we think that we are entitled to be reprefive him to us us one of our standard-bearers, nd such a majority will be rolled up in this disciet that the gallant old First will have to look ther laurels.

January next, Col. William Ellis was called to the chair, and T. M. Dickey appointed secretary. On motion of Col. James P. Bates, Col. B. S. Smith, Capt. Robt. Strange, and W. W. Bush. were appointed a committee to draft resolutions suitable for the occasion, when the following resolutions were reported and ununimously adopted,

Resolved, That we indorse the administration of James Buchsnan, and believe him to have been actuated by pure patriotic, and unselfish motives in the management of the affairs of the nation.

Resolved, That we cheerfully approve the action of the Democratic Executive Committee in changing the time of holding the Democratic State Convention to the Short January, and that we regard this as the most appropriate and suitable time for holding the same.

Resolved, That we recommend to said Convention George T. Wood, Esq., of that county, as a gentleman every was qualified for the office of Governor of this Commonwealth.

Resolved, That in view of the long experience of Maj. John S. Governor, and we cordially recommend him to the Convention for neurination for this position.

George T. Wood, Esq., of Hart county, being present, took the stand, and expressed his warmest thanks and gratitude for the manifestation of partiality exhibited toward him, by preferring his name for the office of Governor of the Commonwealth; and said that although numerous friends from various parts of the State had urged bim to Jermit his name to be presented to the Conven-tion it connection with this position, he had refused to do so, and now refused for reasons that he deemed good ones. He said: A number of gertlemen have been spoken of in connection with this office, any of whom are well qualified for the position. The effect of presenting too many names to the Convention might be embarrassing, and might tend to generate division; and it would exhibit a spirit akin to what our Know-Nothing friends call a "wild hunt after office." I approve of the resolution indorsing the administration. I am opposed to any division of the Democratic party on the Lecompton issue. I think, on this issue, that Mr. Douglas is wrong, and the administration right; but I am opposed to excommunicating the lattle giant of Illinois, for this ore s.n, if he remains true to the Democratic party, as I have no doubt he will always. The Democratic party might survive, if Douglas and Buchanan b th left it, or either; but I have no doubt it can and will survive more successfully with both of them in it. I prefer this.

Mr Wood then made an able and sensible

speech on the prospects of the Democratic party, and the condition of politics in the United States; and was greeted with prolonged cheers as he re tired from the stand.

Joseph H. Lewis theu being called, took the stand and made an eloquent, sensible speech, to which the audience mambested their assent by which the audience mannescer to frequent cheering and other manifestations of

The foregoing is the sense of the several parts of the treaty of which we have heard the Cousul speak; and if it contain nothing more at all, this much even is of vast moment. The single article granting religious toleration alone is a vast triumph. But it is a triumph which must be carefully received. Japan is not yet ready for the modern missionary; nor must it be lost sight of that it was to missionaries of 1690 that her ong seelusion has been owing. It was the unties which then deluged Japan with blood, and we have now more rival societies denominations; than then; and I much don't if feeling is not equally as bitter. The Jupatese are like all equany as office. The Japanese are tike an liberal, and sincere, and lumble Christians, in one respect, at any r te. They cannot understand how people can worship the same God, or God who says. "Love thy neighbor as thyself," and other behind each other's backs. How, then, is Japan to be converted? The unswer is simple enough—by example. Let our citizens settle in and about the ports that have been, and will be, of ened to us. Let some of them be latent missiomaries, if you will, but nothing active but

strict morality and kindness of pearing.

Thus will their love and esteem be won; for they are a people who appreciate the most trivial act of kindness. Thanksgiving Day Scene in New York -- Heartless Honx.

On Thursday, the 18th, (Thanksgiving Day,) undreds of the poor of New York were made he thipes of some reckless, unfeeling wretch, which he forged the names of several respectble citizens, announcing that on that day 6,000 ounds of bread and 1,200 pounds of beef would be distributed to the poor at Union square. The Tribune, after stating that the notice was a cruel hoax, says:

Before nine A M. the poor folk began to assemble in the source, and at ten o'clock we were inormed that there could not have been less than 4,000 persons present. When we arrived many lungry and heart-siek people had gone away. Among those that we saw were many men, evidently inechanies out of employment, whom winter had found wholly unprepared in clothes or purse. The women, and they were by far the most numtales of suffering and privation; and the little children, whose cotton rags scarce served to cover their nakedness, were terrible to look upon-they seemed to lose their youthfulness and shriv-

el up into little old men and women before the sharp November frost. So far as we could learn from conversing with these people, they had come from far and nearsome of them several miles-and many had not eaten during the day. One poor American wo-man who sat on the lench in the Park, with two sweet little chi dren nestling under her scanty shawl, told us she had walked from near Grandstreet ferry, and that she and her little ones had not tasted food since the day before. She was a widow, decently but seantily dressed, and told us, with tears in her eyes, that she found it a hard task to keep the wolf from her door. One of her children was a bright fair-haired little boy of six years, the other a girl of four. We told the poor vonian that she need not wait any longer, the notice in the newspaper was a hoax. As she turned to go home she said, "Pity the man that could do so heartless a thing!" There were

many such groups in that assemblage.
We left the square about one o'clock; several half-tipsy men were then amusing! themselves by scattering small change among the crowd aud watching the frantic eagerness with which the famished wretches scrambled for the coin.

An acquaintance of ours-Brown-sleeps in the third story of one of our hotels. On Sunday night, contrary to his usual abstemious habits, Brown ceneluded to indulge himself in the luxury of a hot whisky punch. The liquor had the effeet to set his spirits in a glow. Being a tittle heavier on this occasion than usual, Brown of course experienced more dilliculty in getting m stairs. Owing to this fact he thought he had at tained a greater altitude than he really had. consequence was, in the first place, that Brown, in all innocence, entered the room immediately below his own, in the second story. This room belonged to a lady and gentleman, but was unocen-pied at the time of Brown's entrance. The room was very like his own, and Brown, not being in-timately acquainted with himself, proceeded to divest himself of his habilinents and got into bed. Just as he had fallen into a sort of dreamy, drunken wakefulness, he felt a soft hand wandering over his face and pressing his temples in a very affectionate manner. He leaped with sudden bound into the middle of the floor, and the lady, for such it was, screamed and ran down Meeting her husband, who had just come in, the lady informed him of what she had discov ered and how she had very nearly made a terrible mistake. The hasband went up to his room, ac companied by a couple of servants, and found the door locked. In answer to repeated thumpings on the door Brown answered in great indignation that rather than be interrupted in that way he would leave the house, and accordingly commenced to harness up. Meantime the true state of things flashed across his befuddled intellect; as the husband and servants, looking the picture of shame and confusion. Being a proverbially polite man, Brown stood humbly passing his hands over each other, as he related how the mistake ocurred, seemingly

BRAGG'S ARCTIC LINIMENT

THIS incomparable Liniment, upon which the great mass of the afflicted of all lands now rely for relief from the pangs of Rheumatism. Neuralges, Gout, Erysipelas, Caneer, Scrofula, Sprains, Bruises, Burns, Sealds, and all cutaneous diseases, is rapidly superseding all similar preparations. The proprietors give for the eacouragement of sufferers the following memorandum of a few of the wonderful cures effected by it during the past few months. Certificates from the parties uamed are in the possession of the proprietors, but their length precludes the publication of all but a few.

One Bottle Trinmphant.

Mrs. Moflitt, No. 345 Morgan Street, St. Lonis, having suffered for three years with Bheumatism, and tried many preparations without effect, was cured by one fifty cent bottle of Arctic Limiment.

Out of Purgutory.

Henry Davis, Mound street, St. Louis, who says he was 'suffering the pangs of purgatory' with neuraligia, for months, was eured by three or four applications of the Arctic Liniment.

Pity the Little Children A little daughter of Mrs. Lee, residing on Lake street, Chicago, was scalded all over by the upsetting of a kettle of boiling water. The Arctic Liniment was applied necording to the directions, and the fire was instantly extracted, and in a few days the little sufficient was well.

Restored to Beauty. Mrs, George K. Tyler, Canal Street, N. O., had long suffered from a painful and disfiguring eruption on the face, and by the use of one bottle of the Linment wascured, and restored to her original beauty. A Horrible Tumor.

Wouderful Cure!

Mrs. Bedford, Mobile, was confined to her couch for three years with mumb palsy, and after being in despair from the fulure of all other remedies, was cured by the Arctic Liniment, in a little over a mostly.

I hereby certify, that having been badly hruised and scalded by the explosion of a Steam Boiler, a friend induced me to try Bragg's arctic Liniment. The smart was instantly extracted from the scalds, and in a very short time, all the pain was gone from the bruises. In two weeks I was well, and able to resume my business. sume my business.

Dr. A. G. Bragge-Dear Sir: For more than three years I had been afflicted with inflamed eyes in an aggravated degree, and tried various Physicians, and several nostrams, to no effect; I was induced by Dr. Baum to ry the Arctic Limment, and in two months was merrly well. My little daughter was afflicted in the same manner for the same time, and during a portion of the time was entirely blind in one eye. I applied your valuable Limiment, and her ryes are now perfectly sound. Thus have I, with one two-bit bottle, carred my daughter's eyes and my own, besides arring the Bhennatism in my back. I would not be without your valuable remests in my house.

From Dr. Jumes M. Jarrett. of the New York Lung Infirmary.

MY connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, tegether with my myrivalled opportunities and advantage of patholog cal research—nided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Tbroat, Lungs, and Air-Passey s. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to aced any enlogs or comment from me. At the solicination of many private and professional friends, through whose philanthropic nid the above charity has been long and liberally supported, and after the consideration. I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not con inc myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional bratheren and the public, I would respectfully amounce, neonclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines.
